

## IPS SECUREX® IS RECOGNISED AS BEING ONE OF SINGAPORE'S MOST RESILIENT ORGANIZATIONS

12 April 2010

IPS Securex Pte Ltd, one of South East Asia's leading security systems integrators, has recently received recognition as being one of Singapore's most resilient organizations. According to the World Continuity Congress, IPS Securex remains the only security systems integrator in the world to have obtained dual Business Continuity Management Certification in British Standard BS25999 and Singapore BCM Standard SS540:2008.

In March, the Company was recognized by the Singapore Business Federation under the National Business Continuity Management Programme. In his keynote address prior to the award presentation, Mr. Lee Yi Shyan, Minister of State, Ministry of Trade and Industry & Ministry of Manpower commented:

"Aik Moh Paints & Chemicals and IPS Securex are here to receive the plaques of acknowledgement, and they have benefitted from this programme. Customers' confidence and trust in these companies have grown after they obtained their BCM certification. By participating in the BCM programme, staff at IPS Securex has also gained a better understanding of the company's internal work flow better, which has in turn created synergy in work processes within the company."

IPS Securex Managing Director, Richard Stuart receiving the award from Mr. Lee Yi Shyan, Singapore Minister of State, Ministry of Trade and Industry & Ministry of Manpower

IPS Securex was also one of the recipients of the Resilience Awards 2011 at the World Continuity Congress 2011 held in Singapore recently. Other recipients included companies such as SMRT Corporation, Ezra Holdings and CPG Facilities Management Pte Ltd.

Richard Stuart, Managing Director of IPS Securex commented: "It is very gratifying that IPS Securex is being recognized together with many well known companies such as CPG Facilities Management and SMRT. More and more customers understand the importance of working with security systems integrators that have in place the necessary plans and procedures to ensure business continuity in times of crisis – precisely the times that security is most important."
